However You Connect It — Make It Your Own

A lifetime of waterfront adventures awaits your family with the Connect-A-Dock floating dock system. Easy to install and engineered to last, the modular sections can be configured to build docks for boating, rowing, fishing, swimming, and anything else you can imagine. Perfect for homes, parks, and resorts.

Enjoy time around the water and create lifelong memories with Connect-A-Dock. Make your dock an extension of your life.

Why a modular floating dock?

The total design versatility of Connect-A-Dock means that every dock is unique! The modules can be connected end to end or side to side allowing you to configure them as long or as wide as you want. With an assortment of sizes and accessories, Connect-A-Dock is perfect for numerous applications in water or on land. See our complete product line at connectadock.com and plan your own installation.

Its 5 minute (per module) attachment system means easy installation and the rotationally molded polyethylene construction ensures years of dependable service.
